

Hello!

I love the idea of sharing shelter adoption stories! My name is Kylee, I adopted Addie from you in November of 2013. She was a bit underweight and in need of TLC. She's received plenty of that (she's actually almost too spoiled....don't tell her though!) and her personality has really come through. She's fun and spunky, but will happily settle with you on the couch for a good snuggle. She loves walks, chasing squirrels, and squeaky toys! This year Addie has become a therapy dog with Magical Paws Pet Therapy here in the Sault. She loves going to therapy visits and she's quickly become a group favourite! It just goes to show what love and good care can do. I love her more than anything and I'm thankful for her every day! Thank you SSM Humane Society for all of the hard work you put in to finding these pets their forever homes!
