

Bella arrived at your shelter on February 27th, 2014 and we scooped her up on March 4, 2014. Bella was very busy in her kennel, however we were very familiar with her breed and she was exactly what we wanted.

Bella is the most loveable, docile and friendly dog ever – she is extremely intelligent and very inquisitive. Bella immediately settled in and bonded to our family. She is a perfect match for our active lifestyle.

Spring is upon us and Bella's adventurous side is in full swing. She loves exploring in our yard and playing in the water.

Bella and I walk every day with my neighbor who has rescued pugs. As soon as we text each other, they know the beep of the text and their ears perk up – it is so funny to watch them together.

Bella loves all different toys but her very favourite is still the tennis ball that my son brought with him when he went to meet her at the shelter. She knows where that ball is at all times and often falls asleep with the ball in her mouth.

Since we have adopted Bella I have sent quick updates to you because we are just so happy that we found her. We love her very much and she has settled in perfectly. We hope that our story will inspire others to give a family friend the second chance that they deserve.

-Trina, Michael and Mike C.
