

I fostered Bella in September with the understanding that she needed a home to get up to health - I hadn't owned a dog in 15 years plus' mainly because I didn't want the responsibility - I lost my mother that November I was needing a break from caring duties - I decided to go meet bella why? something in me made me go. I walked in knelt down and this frail, greasy, under weight, ear infected, eye infected animal walked over and put her nose on my forehead and stayed there for 5 seconds - I asked no more questions other than where do i sign -- I can foster .. I can get her back to health

Bella is now happily adopted She now goes with me everywhere I go - She is my best friend She is known by so many people in the community My family and friends are all aunts and uncles - I don't know how I was living without her - I feel blessed I know she is heaven sent - My mother sent her to me, As she knew I needed rescuing It later dawned on me the day Bella walked into my life - Was September 16th My mothers birthday - Thanks mom and thanks Humane society for showing me what unconditional love is all about xo
