

Hi there, We adopted our dog, Boots, from the Humane Society in July 2015. She hadn't been there for a long time before we scooped her up. Boots has fit right into our little family. She has an awesome temperament and loves to play with our three boys. She loves van rides and going to camp and is getting much better going into the water. She runs to greet every one of us when we get home and loves us up the way only our Bootsie can. We feel super lucky to have found her. She was meant to be our girl.
