

April 2015 marked the one year anniversary of Beans arrival into our grumble, since we are unsure of her birth date we also celebrated that day as her 5th birthday.

The past year has also been a learning process as we didn't have much information on her when we adopted. What we have discovered is that Bean loves to smile, and uses it to get her way. We also found out very early on that she has quite the obsession with plain potato chips, which surprisingly she isn't allergic too, because she's allergic to everything!!! Lol.

Bean fits in nicely with the other pugs and cats, but is determined to catch the squirrel that taunts her outside. She loves her car rides, walks and boating. She has learned real quick what putting her life jacket on is all about. However what Bean does best... is love you unconditionally! She is most content snuggled up beside you, and she is in every sense of the word...a PUG! Bean has been a source of constant entertainment in our lives, and we couldn't imagine our lives without her. Bringing Bean home that day was one of the best decisions we have made!
