

Just an update on Pepper-Jack (Jackie) aka Pepper aka Pepperoni, Pupperoni and Pep-Pep. She had an amazing transition. We came home and she was just like “okay, this is my house and these are my kids and these are my dogs!” Settled right in. Loves to cuddle with us, the kids and other dogs. She’s so incredibly sweet. And soft. Only one pee on the floor the very first day we got her. She gets along great with Birdie and Moose. She’s only eaten one toy dinosaur and one toy reindeer. The kids forgave her because she’s so cute. Her favourite place in the house is on the vent when the heat kicks on. She loves running in the snow with Birdie. She’s very loved and we’re so happy we were able to bring her home!
