

Just wanted to send you an update on Jaxx that we adopted a while ago. He is adjusting great to our family. He is so happy to have an active lifestyle now. Two walks a day. Weekends at camp. Backyard to play in while home. He is great with our daughter and our two cats. He gets along with the other dogs around our camp. He thinks he is a lap dog despite his size. He didn't like being neutered but he is much better now...all healed up. I will attach some pictures. We love our Jaxx.
