

Good morning everyone! I wanted to write you a quick email to let you know my new family is amazing!! I love to play fight and cuddle with my bigger sister nutmeg (she is a pug Boston mix) and my pug brothers are pretty fun too, they slept a lot so I jump on them all the time.

I have a big kitten tree that looks out a big window so I can watch over my people and my neighborhood.

My family loves me so much I get kisses and cuddles all the time. I have at least 20 toys, a cool bed (but sleep on my parents bed mostly), and a fun cat fort for hiding in when I'm being sleepy and silly.

I'm fed the best fancy food, Fromm tuna, no soft food though and get yummy treats every time the doggies get one.

I've gotten bigger! I can't believe how long my beautiful tail is and my fur is super soft, clean and shiny.

I was just at Great Lakes animal hospital and they took good care of me for my neuter surgery. One awesome thing is I still have my claws. My parents didn't want me to suffer that surgery so we just trimmed my nails instead. Phew!

I thought you'd all want to know how happy I am and how happy my family was to find me.
