

My family adopted Kenzie in June 2014 from the humane society when she was 10 weeks old. She has always been the queen of the castle. She has tons of energy and LOVES her ball. She loves car rides and going to camp to run & swim.

In December 2015 I went to the humane society looking for one more dog to keep keep kenzie company.... I was 8 months pregnant and very emotional to keep the story short I left with duke & diesel 8 week old lab puppies. Yes I was crazy.. I heard it from everyone. But I have never regretted my decision. I had them house trained in 1 one week and by time the baby came they were ready!! The 3 dogs are inseparable!! They all play together and follow queen kenzie around. Of course the boys play fight outside but that's what brothers do!

My dogs have acres to run and love when dad takes them for side by side rides and boat rides to Goulais Bay.

I could never imagine my life any differently. These dogs are my babies and I'm so grateful for the humane society for giving me this opportunity!! Thank you from the bottom of my heart!
