

Hi there, I wanted to share with you an update about a cat we adopted three years ago. Feel free to share this on your page. In June 2012, we adopted Lateralus (who goes by the nickname Charlie). We wanted to give an older cat a home as we know it can sometimes be hard for them to find a place. You wouldn't know he is almost ten though - he is so active and always up to something mischievous. He makes us laugh every day with his antics. An example is when, if our bathroom door is left open during the night, he will sneak in and unroll the entire roll of toilet paper. Sometimes we will find the end of the roll in the toilet. We have only been able to catch him in the act once, since he is so sneaky about it. When we exercise in our basement, he is always joining in, in whatever way possible - whether it is rolling around on the mat next to us, or walking underneath us when we are in a plank.

I could spend so much time writing about all of his quirks. He also gets along great with our cat and our dog, and he makes our family complete! We love this little guy so so much!
