

Hello!

We adopted Sapphire about a yr and a half ago. We renamed her to Luna. She is an amazing kitty who loves to play at night. She loves our children and has made herself quite at home. She is very vocal and talk to us all of the time. She is quirky and very affectionate, especially with my husband. We love her and are so happy we decided to adopt her into our home!

Thank you for doing what you guys do.

Sincerely,

The Schellekens family
