

Hello,

I'm not sure if this will get seen but I wanted to give the ssm humane society a update on a dog we rescued 3 years ago.

He had been to the shelter a couple of times before we adopted him. First under the name Dwight then Loki. After we adopted him we decided to rename him Molson.

When we first adopted Molson it was a little but of a rough start. Molson had some trust issues as he had been to a couple homes before ours. However we never gave up on him. After some hard work and a lot of patience Molson realized that this was now his home. He turned out to be a great dog and fit into our family perfectly. Molson loves going to the dog park and sleeping on the couch. However his absolute favorite thing is being in water. He could chase rocks and swim for days!
