

Nicklaus and Snoopy, proof that two are better than one! Nicklaus was adopted as an adult in December 2013, and quickly became an integral part of his new family. They enjoyed his company and feline antics so much, that two years later the family decided to bring home a second feline. Snoopy became a part of the family in December 2015, nearly two years to the day that Nicklaus came home. We are pleased to hear that it was as if Snoopy were there all along! He is getting along perfectly with his new BFF Nicklaus and has quickly found a spot deep within the hearts of his new family.
