

“It has been two months since we welcomed Noka (formerly Ranger) into our family and our hearts have grown ten times in size. We did not realize that we were adopting a dog x truffle pig hybrid 😊 at the time, but his snack sniffing skills are undeniable.

He brings joy and laughter into even the most mundane moments of life and reminds us to slow down and take time to smell the, well...smell the everything. It is impossible to imagine life without him!

We are grateful to the Sault Ste. Marie Humane Society for taking such good care of Noka and all of the other animals patiently waiting for their forever homes."
