

Patch (formerly known as Barney when I adopted him from the Humane Society) has been my furry best friend since 2007 when I picked him up at about 3-months-old. He is a happy old man now. 🐱

He is the biggest cuddle bug and loves to be around people - especially if that means he's getting pets or forehead kisses! He loves to play - even at just about 18 years old, he still chases a laser!

I'm forever grateful for what he has brought to my life ❤️ and have been sure to make my husband aware he was my main man first haha. I believe we were meant to find each other and am so glad we did. ❤️🥰 In his lifetime, he has gained 2 human siblings and 2 dog sisters! He's certainly loved by our little family.
