

Yeti & Yoda were adopted in January 2021, and their 1st Birthday was in November. They are 10 pounds but enjoy 2 to 5 km daily walks and supervised play in our large fenced in yard. The boys like the pontoon boat & beach, Strathclair Dog Park, and hiking adventures with us. Yoda & yeti are wild about squeaky toys & sticks. They are really smart and will sit on the weight scale, and do sit & eye contact to be picked up on the coach. If we are slow Yoda will target our feet with his nose, and Yeti will bat our legs like a cat, (we taught him to ring a bell like this) and then sit & eye contact. Yeti is the mustached devil and Yoda is the sweet shy one. The boys are very happy they were adopted together, and so are we. Thank you SSM Human Society for our energetic, fun, too cute, much loved dogs.

Jan and Mike
