

Yuki, now known as 'Fern'

She is a such a lovely girl. She is settling in here beautifully. She is very quickly and easily learning her manners and we are totally in love with her silly and happy spirit. She is super affectionate, absolutely loves to cuddle up in bed with us for the night and is happy to follow any one of us around simply to be a part of whatever is happening. She and Sadie-Mae are awesome together. Sadie loves being chased and Fern is happy to do the chasing. When they aren't playing crazy hard she is quite calm and seems to understand that she is home. Thanks so much for giving us the opportunity to belong to her 😊

-Erin
